

SUNNY SINGH

Full-Stack Developer • Software Developer • SaaS & Web Applications

Patna, Bihar, India • +91 9229804273 • sunnyk7rajput@gmail.com • github.com/K7SUNNY • linkedin.com/in/K7SUNNY

PROFESSIONAL SUMMARY

Full-Stack Developer with practical experience engineering scalable SaaS platforms, business software, and AI-powered web applications. Proficient across modern frontend architectures, backend APIs, relational and NoSQL databases, secure authentication, multi-tenant patterns, and payment gateways. Proven leadership experience managing a 4-developer engineering team while maintaining direct hands-on involvement across the full software development lifecycle.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, Java, SQL, HTML5, CSS3
- **Frontend Development:** React, Vite, Tailwind CSS, Responsive Design, State Management, REST APIs
- **Backend & Databases:** Supabase, PostgreSQL, Firebase / Firestore, Database Schema Design, RLS
- **SaaS & Security:** Multi-Tenant Architecture, Role-Based Access Control (RBAC), Razorpay, Subscription Workflows
- **AI & Automation:** OpenRouter, Mistral, LLM Integration, llama.cpp, GGUF Quantization, n8n
- **Tools & Platforms:** Git, GitHub, Netlify, Android Development (Native Java), Linux

WORK EXPERIENCE

SISWIT Pvt. Ltd.

Jan 2026 – Present | Patna, India

Frontend Developer / Full-Stack Developer & Team Lead

- Architect and develop core modules for an enterprise SaaS suite spanning CRM, CPQ, CLM, ERP, documentation, and employee/customer management systems.
- Implement secure multi-tenant infrastructure, Supabase Row Level Security (RLS) policies, and role-based access control (RBAC).
- Integrate Razorpay payment gateway workflows to manage subscriptions, trial periods, automated billing, and feature entitlement.
- Lead and mentor a 4-developer engineering team; coordinate sprint tasks, conduct code reviews, and align implementation with business specs.
- Triage and troubleshoot production bottlenecks across database schemas, authentication states, API integrations, and Netlify deployments.

FEATURED PROJECTS

Spark — AI Assistant Platform

React • Tailwind CSS • Firebase • OpenRouter • Mistral

- Engineered a full-featured conversational AI platform supporting roleplay personas, prompt templates, and persistent chat history.
- Integrated high-performance LLMs via OpenRouter and Mistral; built custom chat controls, context search, and session persistence in Firestore.

Nex — Offline AI Assistant for Android

Android • Java • llama.cpp • GGUF • TinyLlama

- Designed an offline-first mobile AI assistant capable of running lightweight LLMs (TinyLlama 1.1B) on-device without cloud API dependencies.
- Utilized llama.cpp and quantized GGUF models to achieve low-latency inference on resource-constrained mobile hardware.

Visuals by Pritam — Creator Portfolio Platform

React 19 • TypeScript • Vite • Tailwind CSS • Supabase

- Built an asset management portfolio for a video professional featuring dynamic media showcase, upload workflows, and Supabase Auth.
- Engineered an automated video compression pipeline to optimize uploads to under ~49 MB while preserving visual and audio fidelity.

Shivam Engineering & BalanceX

Web Development • Android (Java)

- **Shivam Engineering:** Designed and deployed a responsive corporate website focused on service discovery and client lead generation.
- **BalanceX:** Developed an Android accounting utility for managing transactions and financial statements (iterative release v1.20.3).

EDUCATION

Bachelor of Computer Applications (BCA) — Impact College, Patna (CGPA: 7.04 / 10)

2024 – 2027

ISC (Class 12) — Commerce — Holy Christ Secondary School, Dankuni

2024

ICSE (Class 10) — Science — Holy Christ Secondary School, Dankuni

2022
